

# LEDGESTONE 68" BAR KIT ASSEMBLY GUIDE

- **Easy to Follow Assembly Instructions**
- **Maintenance Free**
- **Minimal Cuts Required**
- **Frost Footings Optional**

## Finished Size

A Ledgestone bar kit is the perfect outdoor feature for anyone who loves to entertain. These kits are extra easy to assemble. Just stack and glue the Ledgestone units and top off with the natural stone countertops. Minimal cuts are required.

## Material List

Kit Quantities include extra material to accommodate cuts.

This assembly guide is intended for use only with the Ledgestone Bar Kit. Use with substitute products is strictly prohibited without prior written approval from Willow Creek Paving Stones.

**Before You Begin:**

Before you plan your project, be sure to find out about zoning requirements in your area, along with rules for excavating and building. Whether your project is large or small, you should obtain all required permits before you begin your project.

Call 811 before you dig. Every digging job requires a call—even small projects like planting trees and shrubs. The depth of utility lines varies and there may be multiple utility lines in a common area. Digging without calling can disrupt service to an entire neighborhood, harm you and those around you and potentially result in fines and repair costs. Calling 811, a federally mandated call-before-you-dig number, before every digging job gets your underground utility lines marked for FREE and helps prevent undesired consequences.
